Dear Andrew Wiltison,

I am a rising Junior at Washington University in St. Louis (WashU), and I am majoring in Computer Science with a focus in Mobile and Web Development. I am writing to you regarding the Greenwood Project Summer 2019 Internship. I learned about this opportunity through the Noble Alumni Career Office, and I am very interested in the Application Development/Web Development Intern role. I have experience working on a variety of projects in Swift, HTML, CSS, and JavaScript. I am currently looking for an opportunity to professionally develop my skills as well as expose myself to other IT functions. Therefore, based on my qualifications and passion, I believe I would be a great fit for the Greenwood Summer Internship.

While at WashU, I was a student in the CodePath online iOS program. CodePath is an organization committed to teaching students the fundamental skills to succeed as Software Engineers. During my 12 weeks, I learned the foundational skills of Swift through designing, coding, and debugging a Flash Cards App. In addition, I was a Teacher's Assistant for the *Introduction to Web Development* course at WashU. I actively helped students learn and debug HTML, CSS, and JavaScript in several projects. In addition, for two years, I have sought out opportunities through the Noble Alumni Career Office, and I have externed at 8th Light and Current Media LLC learning about different Computer Science fields. Through my experiences, I have developed a strong passion for Computer Science, and I want to continue learning more about different IT functions while working on my Mobile and Web Development skills.

I am eager to gain more experience in Mobile and Web Development as well as other IT functions. Therefore, I am confident that my background, passion, and skills are the best fit for the Greenwood Project Summer Internship. If you have any questions or concerns about my experience or background, I am available via email (john.doe@wustl.edu) or phone (312) 312-3123. Thank you for your time and consideration. I look forward to hearing from you soon.

Sincerely,
John Doe
